Suffolks.

1 P. M.  
Hackneys.  
French Coach Horses.  
Saturday, December 9; 9 a. m.

## Better Post Your Farm.

Many farmers in Cedarville and  
adjoining townships have posted  
their land against hunters. There  
are many more farms posted against  
hunting this year than usual, not  
that the land owners wish to deny  
their friends from hunting, but as a  
precaution and protection owing to  
hog cholera.

This epidemic now covers large  
sections in a number of townships  
and can easily be spread by hunters  
going from an infested farm to  
another. The germs can be carried  
on the feet and it is for this reason  
that so many land owners are more  
in earnest this year than ever as to  
the hunting laws being obeyed.

Those who have not yet posted  
their farms can get the necessary  
signs for hunting and trapping at  
this office. We keep them in stock.

## Protoc. Assoc. Orders Assessment

At a meeting of the directors of  
the Cedarville Protective Association  
last Saturday and an assess-  
ment of \$2 per member was or-  
dered, to pay bills and create a  
small balance for use in the future.  
Members not having paid are de-  
manded protection. Pay the assess-  
ment at the Exchange Bank.

Kodaks and Kodak supplies.  
15d Nagley Bros. Grocery

## Elmer Waddle Buys Grocery.

Mr. Elmer Waddle has purchased  
the O. M. Townsley grocery and  
took charge of the business, Tues-  
day. Mr. Waddle will make some  
interior changes and add several  
new lines to this stock. He asks  
the patrons to give him a call and  
also a share of the patronage of  
friends. Mr. Townsley has not  
made an announcement for the  
future.

### CHURCH SERVICES.

Wednesday evening prayer meet-  
ing at 7 o'clock. Subject: The Pub-  
lican's Prayer. Luke 18:9-14.

A cordial invitation is extended to  
all.

## Hunting Season Brings Accident.

Hunting season opened Wednes-  
day and the first accident in the  
county was that of George Cop-  
eland, who resides on the William-  
son pike, out of Xenia. A gun in  
the hands of his neighbor, Mont  
Mauor, was accidentally discharged,  
into Copeland's hip. The wound is  
painful but not serious.

### ALFALFA IN OHIO.

Alfalfa as a farm crop in Ohio has  
risen during recent years from a  
position of doubtful adaptation to  
one of recognized value; though its  
utilization is by no means as exten-  
sive as its merits would warrant.  
In order to obtain more definite  
knowledge respecting the actual ex-  
perience of farmers with alfalfa the  
Ohio Experiment Station, at Woos-  
ter, has made a state-wide survey  
of this crop, and the information  
thus obtained has been brought to-  
gether in Circular 113, just issued,  
and which describes the practice of  
farmers in all parts of the state who  
are successfully growing alfalfa.

The question of soil, time and  
manner of seeding, liming, drainage,  
manuring, fertilizing, cultivating,  
harvesting, economy of production  
and marketing are treated in this  
circular in a way to answer the  
questions where to grow alfalfa,  
under what conditions it is most  
likely to succeed and under what  
ones to fail. The circular will be  
sent free to any applicant.

Address: Experimental Station,  
Wooster, Ohio.

### ADMINISTRATOR'S

#### PUBLIC SALE.

I will offer for sale at the A. W.  
Osborn property, corner of Main  
and Cedar streets, Cedarville,

man, owner on the farm, Citizens  
phone.

—Men's and Boy's Sweaters  
and Underwear.

McFarland Bros.

### THE REV. IRL L. HICKS

1912 ALMANAC.

Before the great Drouth of 1901,  
the Hicks Almanac gave timely  
warning. For over two years prior  
to 1911, the Hicks Almanac again  
sounded a warning of drouth dan-  
ger. And so for forty years this  
same friend of all the people has  
steadfastly refused the offers of  
speculators and continued to warn  
the public of the coming dangers of  
storm and weather. As they should  
have done, the people have stood  
nobly by Professor Hicks, their  
faithful public servant, who has  
grown old in their service.

Send only One Dollar to WORD  
and WORKS PUBLISHING COMPANY,  
3101 Fran lin Avenue, St. Louis,  
Missouri, and get his Magazine and  
Almanac both for one year. The  
Almanac is a fine book of 150  
pages, only 35c by mail. Let  
everybody respond and receive the  
warnings of our National Seer for  
the coming year.

### Do You Want to Dye

If so, use the  
Putnam  
Fadeless  
Dye, they  
color silk,  
wool and  
cotton at  
one boil-  
ing, fast,  
bright  
and beau-  
tiful  
colors.

Do You Want to Live  
well and keep healthy. Then remem-  
ber we have a complete line of drugs,  
medicines, chemicals, etc., strength  
and quality guaranteed.

Wisterman's Pharmacy

## Fairfield Farmer Takes Poison.

John Breneman, 45, despondent  
over financial loss and the death  
of his wife, who was burned by an  
explosion of coal oil some months ago,  
took a dose of Paris green, Thurs-  
day and died Friday.

When he had not been seen by  
neighbors an investigation resulted  
in the body being found across the  
bed, life being almost extinct.

Breneman was a farmer and  
bore a good reputation and was bet-  
ter off financially than he thought.  
He is survived by a mother and sis-  
ter in East Petersburg, Pa. His wife  
was a daughter of Robert Ford of  
this place.

The funeral was held in Dayton,  
Monday, Mr. C. N. Stuckey and  
wife, Mrs. Robert Ford and William  
Ford, attending the services.

## Echos Of Election Trouble.

Phillip Mathews and William  
Cosby, colored, two Republican  
election officers in Pretnot H. 4th  
ward, Xenia, have been bond over  
to the Grand Jury on charges of  
tampering with the ballot boxes.  
Dr. Fess and W. H. Dongess did  
not receive a vote and it is claimed  
that 20 citizens voted for each.

Why charges were not filed  
against the other Republican judge  
and the Democratic judge and clerk  
is not known, when charges of the  
above nature have been made for  
years in that precinct, and when  
all the election officials of the pre-  
cinct must sign the returns.

## New Enterprise For Xenia.

"The Shawnee Refrigeration Com-  
pany," Xenia has been incorporated  
with a capital stock of \$25,000,  
the following comprising the incor-  
porators: W. D. Wright, H. E.  
Schmidt, C. C. Haines, M. J. Mar-  
ley, J. F. Orr.

The company will take over the  
old paper mill property and man-  
ufacture ice and also engage in the  
cold storage business. There has  
been a great demand for an ice  
plant in this county as the man-  
ufactured ice is far superior for use  
to private consumers.

## BRR-R-R Its Cold!

And you'll be a lot colder if  
you keep on wearing that  
summer clothing clothing.

Come in and let us prescribe for you:  
**A Munsing Union Suit; A Hart,  
Schaffner & Marx Suit and Ov-  
ercoat; a Fur Cap; Interwoven  
Hose and Walk-Over Shoes**  
and you will be prepared for winter.

**You will find all these stan-  
dard make of goods at**

### By-Products of Saving

In manufacturing the term "by-product" is used to  
designate that which is made out of the remnants after  
the regular articles are manufactured. Much of the  
profit in many lines of manufacture comes from the by-  
products.

Just so, many of the advantages in saving come in  
as by-products and constitute very great benefits over  
and above the primary object which is to accumulate  
money. A good credit standing, confidence in one's  
self and a general tendency to handle money more  
carefully are the main by-products of saving.

You should have all of these things and can have  
by carrying a savings account here.

**Where Are Your Interests**  
Are they in this community?  
Are they among the people with whom you associate?  
Are they with the neighbors and friends with whom you do business?  
If you want to know what is happening in this community, you want to know the goings and comings of the people with whom you associate, the little news items of your neighbors and friends—now don't you?  
That is what this paper gives you in every issue. It is printed for that purpose. It represents your interests and the interests of this town. Is your name on our subscription books? If not, you owe it to yourself to see that it is put there. To do so.

**Will Be To Your Interest**  
**A Business Proposition**  
Did you ever stop to think, Mr. Business Man, that the news of your business is as much a part of the local events as a wedding or a church fair? The ladies are just as much interested in a new fabric you have on the shelves as they are in any home happening. Your store news and announcements in these columns will reach a large circle of eager buyers. This will enable you to sell your goods while they are new and fresh and you will not have to sacrifice later at remnant counter prices. Think it over.

**There's a Way**  
To defeat the mail order man's cut-throat methods in this community, the way is publicity for your business—it's the same way he uses. Our columns will give your business the publicity you need.

**You Owe It**  
to your own community to buy your goods from your home merchant and stand by his business man. You can always find the surest means of representative business in these columns—men who will stand back of every statement and price they make.

**Printer's Ink**  
When used on good presses and neatly displayed type for your stationery is valuable. We have every facility for doing the best of job work, at a minimum price.

**INSECT SENSE OF SMELL.**  
Ants Are Said to Recognize Their Different Species by Odor.  
Students of the behavior of ants are well aware of the fact that they will not tolerate strange ants in their nests. If a foreign, even though of the same species and indistinguishable to human eyes from the lawful inhabitants of the nest, strays in from another nest she is apt to emerge hastily, pursued and attacked by the ants which belong there. How do they know that she is a foreigner? It does not seem likely that among the thousands of ants belonging to the nest another ant of exactly the same species should be recognized as a stranger by her appearance. The English naturalist Lord Avebury in his book on "Ants, Bees and Wasps" records some experiments to test the possibility that ants may recognize their nest mates through some movement of the feelers or antennae, with which they sometimes seem to greet each other when they meet.  
He stupefied with alcohol ants from different nests and placed them near one of the nests. The ants from that nest came out and carried their helpless nest mates home, but threw the bodies of their enemies away. Evidently friend and foe were distinguished by something other than their behavior.  
A German physiologist, Bethé, solved the problem in the following way. He suspected that ants from a foreign nest might have an odor that excited the warlike instincts of ants in the home nest. Accordingly he took a number of ants from one nest, killed them and crushed their bodies so that the body fluids were pressed out. Taking some live ants from a second nest, he first dipped them in water and alcohol and then into the body fluids of the other ants. He then returned them to their own nest. Their nest mates fell upon them as if they had been total strangers, and they were driven out and in some instances killed.  
On the other hand, Bethé found that the foreign nest, the odor of which they now presumably bore, would receive peacefully the ants which had undergone the transforming treatment.  
Other observers have confirmed these results of Bethé's for many species of ants. The truth, then, seems to be that any ant odor differing from their own puts the ants into a warlike attitude.  
It is true that this explanation requires one to suppose that a different odor belongs to every ant nest, and this seems hard to believe, yet nothing else appears to account for the facts.  
There are many other remarkable things about the sense of smell in insects, and it must be remembered that the sense of smell in human beings is far inferior to that of some animals—for example, the dog. Man cannot judge the capacities of other animals in the matter of smell by his own poor performances.—Youth's Companion.

**Will Be To Your Interest**  
**A Business Proposition**

**DUST IN THE AIR.**  
It Has a Bearing on the Temperature of the Atmosphere.  
When the air is very thick and hazy it may contain floating dust particles to the number of from 10,000 to 20,000 in every cubic centimeter, while a cubic centimeter of very clear air may contain only from a dozen to a few hundred particles.  
An English observer's data indicate that there is a relation between the quantity of dust and the temperature of the air. A great amount of dust, it is thought, increases the temperature in the daytime and checks the fall of temperature at night. The reason is that the presence of dust serves as an obstruction to the free radiation of heat through the air. The sunbeams pass through very pure, clear air without lending much heat to it, and at night the heat received by the ground during the day readily escapes through the same air, but if the atmosphere is heavily laden with dust the sun's rays are partially arrested by the particles, becoming heated, in a warm the air, and in like manner heat radiated from the earth at night is retained in the hazy layers of air in contact with its surface.  
Without its atmosphere, which serves as a coverlet to protect it against the fearful cold of space, the surface of the earth would be frozen like that of the airless moon. But the data gathered by reliable observers show that the atmospheric blanket wrapped around our plane varies in its power to retain heat in proportion to the amount of dust particles that it contains.—Harper's Weekly.

**A Costly Grudge.**  
The most expensive act of damage ever committed by a railway worker was that of an Italian navy employed on the construction of a tunnel through one of the mountains in the Black forest. Having a grudge against his foreman, he succeeded one night in altering the position of the stakes which marked the course of the work. The excavators were working upon the tunnel in two sections, one from the north and one from the south. Owing to the shifting of the stakes the sections instead of being directed to the same point were found to be twenty-six feet apart when they reached the middle of the mountain. The northern half of the tunnel had therefore to be entirely reconstructed at a cost of £175,000.—London Chronicle.

**The One He Saved.**  
Harold, aged nine, came home one day so bruised and dirty that his mother was thrown into a state of marked perturbation.  
"Mercy!" she exclaimed in horror. "How on earth, my child, did you get your clothes and face into such a state?"  
"I was trying to keep a little boy from getting licked," was Harold's virtuous if hesitating reply.  
"Well, that was fine," said his mollified parent. "I am proud of you, sonny. Who was the little boy?"  
"Me,"—Chicago Record-Herald.

**What He Was Practicing.**  
When a leading citizen of a New Hampshire town returned thither after a prolonged sojourn abroad he made a tour of the place to find out how all his old friends were "getting along."  
At one establishment he found a youth, the son of an old friend of his, whose father was still paying his office rent.  
"Practicing law now, Jim?" asked the returned one genially.  
"No, sir," replied the youth frankly; "it appear to be, but I am really practicing economy."—Lippincott's.

**Careful Child.**  
"Is your little boy sick with anything?" asked the lady of the lady who had just moved in next door and who had asked him to come over and play with her little boy.  
"No, indeed," she smiled. "Why?"  
"Cause I've had my tonsils taken out an' my adenoids removed an' my appendix cut out, an' I've been vaccinated an' serumized for typhoid an' spinal meningitis, an' I've had antitoxin injected, an' I do hope I won't have to have anything done to me this year, so I can have a little bit o' fun for awhile."—Woman's World.

**Great Scheme.**  
Jenkins—There's Perkins—you know Perkins?—entered into an agreement with his wife soon after their marriage, twenty years ago, that whenever either lost their temper or stormed the other was to keep silence.  
Bob—And the scheme worked?  
Jenkins—Admirably. Perkins has kept silence for twenty years.

**THE HIGH GRADE LEHR PIANO**  
IS USED AND ENDORSED BY  
The Grand Conservatory of Music, New York City,  
The Pennsylvania College of Music, Philadelphia,  
Chicago Conservatory & Hines School of Opera, Chicago,  
The Public Conservatory of Music, Pueblo, Colo.,  
AND OTHER LEADING CONSERVATORIES.  
A sweet yet brilliant and powerful tone, exquisite scale, perfect adjustment and durable workmanship place it in the front rank of the best instruments made to-day. It is the ideal piano for the home, where it provides a sign of culture and refinement.  
The LEHR PIANO is manufactured under singularly favorable conditions which insure the best of production, and it has achieved a brilliant success in the hands of the best pianists.  
It is a great asset at a satisfactory price. WRITE FOR CATALOGUE AND PRICES.  
H. LEHR & COMPANY, Manufacturers, Easton, Pa.

**A BALLOON THAT FAILED.**  
It Was to Have Started Paris in 1834, but It Refused.  
A dirigible balloon, L'Aigle, was to have made a journey from the Champ de Mars on Aug. 17, 1834. The poetic wording of the prospectus is in itself a curiosity, and the aeronaut also was not wanting in interest. It was forty meters long—that is, 130 feet—and fifteen in width—that is, forty-eight feet nine inches. It had the form of a monster sea fish and was inflated with hydrogen.  
Within was a second envelope, which, with the aid of pumps, compressed or rarefied the air for ascending or descending, as the case might be. At the extremities were two great "roues a ailettes" for steering purposes.  
There was no motor, and the navigators had to work the machinery with their hands. The car of wicker was described as a marvel of comfort, with seats for ten persons. The dirigible was to have made its ascent with the two aeronauts, MM. Lenon and Edum, who were to have been accompanied by their wives.  
The prospectus of the 1834 dirigible informed the public that the inventor had constructed two years ago at Montmartre a monster-machine which he raised one night far away from curious eyes to study its capabilities, but the result was not equal to his expectations. Today, after great improvements, the apparatus was ready for victory.  
This would be achieved in the presence of a great concourse of spectators, and the inventor and his wife, with several people, would make the ascent. Given favorable wind, two hours would be sufficient for the journey to London, which is ninety-eight leagues from Paris. The itinerary was indicated with great precision.  
But in spite of the magnificent promises and after the expenditure of great trouble and energy the apparatus was got to the Champ de Mars, but beyond that it would not move. The crowd was enraged and smashed the machine.—Paris Letter.

**Greatest of Infant Prodigies.**  
Perhaps the most marvelous infant prodigy on record was Christian Heinicke, born at Lubek, Feb. 6, 1721. At the age of ten months he could speak and repeat every word which was said to him, when twelve months old he knew by heart the principal events narrated in the Pentateuch, in his second year he knew most of the Bible by heart, and before he was three he learned to speak Latin and French. In his fourth year he employed himself in the study of religion and the history of the church, and his fame as a scholar spread so that the king of Denmark sent for him and was amazed at his learning. But before he was five years of age he fell sick and died.—London Chronicle.

**Retold Stories.**  
The girl was telling the man an anecdote, and a queer look passed over his face. The girl stopped, embarrassed. "I am afraid I have told you this story before," she stammered.  
"Yes, you have," the man admitted frankly, "but don't worry. It isn't half so bad as what happened to me yesterday. A man told me a story that I had originally told him. Worse yet, he got all mixed on it, lost the point entirely and then expected me to laugh at it."  
"And you couldn't?"  
"Oh, yes, I could, but not the way he thought."—New York Press.

**A Girl's Way.**  
"Why do you keep asking me to be your wife? You surely wouldn't want me to marry you if I didn't love you."  
"No, I don't want you to marry me if you don't love me, but I can't help thinking the practice I'm getting in asking you may some time come in handy. Now I'm going to give you another chance to turn me down."  
"Oh, well, if you're determined to have me I suppose I may as well say yes."—Chicago Record-Herald.

**The Danger Line.**  
"Once," said Brother Dickey, "dar wuz a man who prayed dat he might git out o' de wilderness, an' his pra'r wuz answered, an' time he got out a ordemobile run over him, an' then 'bout de time he riz up an' breshed de dust from off him a a'rship felled on him, an' wen he come ter bissef ag'in a policeman told him ter move on, so he lifted up all de voice what he had left an' prayed fer a harricane ter blow him back ter whar he come from!"—Atlanta Constitution.

**CASTORIA**  
For Infants and Children.  
The Kind You Have Always Bought  
Bears the Signature of  
*Dr. J. C. Hutchison*  
In Use For Over Thirty Years  
**CASTORIA**  
ALCOHOL 3 PER CENT.  
A Vegetable Preparation for Assimilating the Food and Regulating the Stomach and Bowels of INFANTS & CHILDREN.  
Promotes Digestion, Cheerfulness and Rest. Contains neither Opium, Morphine nor Mineral. NOT NARCOTIC.

## LOCAL AND PERSONAL

For stylish suits go to Sullivan's 21 S. Limestone St., Springfield.

Aristos Spring Wheat Flour. McFarland Bros.

Mrs. C. B. Wiles is the guest of Xenia friends.

Mrs. M. W. Collins spent Friday and Saturday in Dayton.

Messrs. J. M. and W. J. Tarbox have been in Perry county this week.

Mr. James McCollan of Indianapolis stopped off here Thursday evening.

Miss Francis Aiken of Belle Centre, was the guest of Mr. T. N. Tarbox and family, Sabbath.

Mr. D. M. Dean and wife have had for their guests Mr. and Mrs. Sibley and daughter of Columbus.

Bread and cakes baked each day. Phone your order to Mrs. Arthur Townsley, telephone 29.

Bananas! Bananas! Five cents per dozen, Saturday only. Fine quality of stock. Wm. Marshall.

Men's Suits \$10 to \$25.50 at Sullivan's, 21 S. Limestone St., Springfield.

For snappy, stylish overcoats go to Sullivan's, 21 South Limestone St., Springfield.

Mr. Charles Galbreath of Dayton is spending a couple of days with his mother.

Mr. Clayton McMillan is the proudest citizen along the Columbus pike, all due to the arrival of a son, Thursday.

FOR SALE: Twenty-nine acres, new house, on good pike, close to town. Price right. G. H. Smith.

Mrs. F. E. Vance, who has been the guest of Dr. J. O. Stewart and wife, left this morning for St. Louis and Duluth. Mr. Vance, who is editor of a daily in Troy, accompanied by his son, Edmund, an O. W. U. student at Delaware, were guests at the Stewart home Sabbath.

Invitations are out for the marriage of Miss Mary Bradfute, daughter of Mr. John K. Bradfute, to Mr. Edgar Tobias of Osborn. The ceremony will take place at the bride's home on Saturday, November 26th.

Winter fell upon this community last Sabbath, the mercury dropping from 73 Saturday to 34 by Monday. Snow driven by a high wind made the day a terror to live stock and many farmers were compelled to work all day to save their fruit and potatoes that had not been put away for the winter. She wind on Saturday night blew over the chimney on the M. E. church as well as damage to other property in the county.

CLASS

And plenty of it in our wearing apparel for men. Extreme styles for the young man, moderate and subdued styles for the middle-aged and elderly man. No matter what your taste is you can get suited here. Prices reasonable.

An oyster supper was served. Mr. and Mrs. Stevenson will move to town in a few days, having remodeled the S. K. Mitchell dwelling. Mr. Harry Wilson has rented the Stevenson farm.

Superintendent Lester S. Ivins will address the teachers, pupils and patrons of the Cedarville and Ross township schools on the subject of Agriculture at the Cedarville Opera House, Friday, November 24, at 2 p. m. Prof. Ivins is one of the four men appointed to supervise the teaching of Agriculture. As his territory consists of 21 counties, we are fortunate in securing his service so early in the year. We invite all interested in the schools or the subject of agriculture to be present. F. P. Ritenour, Supt.

WANTED: Good Housekeeping Magazine requires the services of a representative in Cedarville to look after subscription renewals and to extend circulation by special method which have proved unusually successful. Salary and commission. Previous experience desirable, but not essential. Whole time or spare time. Address, with references J. F. Fairbanks, Good Housekeeping Magazine, 631 Fourth Ave., New York City.

WE PRINT  
SALE BILLS  
AND PRINT THEM RIGHT

THINK ABOUT IT About what the Home to you and yours. Means all the interest ing news of the community, of your neighbors and friends, of the churches and schools, of everything in which you are directly interested. Don't you think the Home Paper is a good thing to have?

## GREAT REVIVAL OF THE SEPARATE WAIST

Sheer Creations Divide Favor With the Tub Blouse.

The blouse is holding its own very well. One of the greatest French dressmakers, if not the greatest--M. Worth himself--is authority for the statement that the next year will see a great revival of the separate blouse and skirt combination, not only as far as the tailored suit and waist are concerned, but for other wear. We may even see the silk skirt and lace waist combination, which was once the dress up regalia of a large percentage of women, back in favor.

Be that as it may, the luxurious little blouse of sheer stuff and dainty design is a very essential part of the wardrobe this season, and each blouse model that one sees seems more charming and more fascinating than the last. As the weather grows warmer more and more tub blouses of actually washable materials appear. One says "actually washable," thinking of the host of blouses presented under this classification which would be in sad plight indeed were honest soap and water ever to touch them. Many of the cheaper models embroidered in color, while immensely attractive on the counter, would not survive one laundering. For the colored underblouses are not always fast. The fresh pretty delft blue turns to a dingy gray, and lavender fades into a yellowish tan. Some of the colors even run into the fabric surrounding them. The lovely voile and marquisette blouses also often prove a delusion and a snare, for this fabric never stops shrinking. A voile waist should always be purchased several sizes too large, and the excess of material may sometimes be taken up for the first two or three weeks of wear in little pin tucks, which may be incorporated with the design of decoration.

Headgear For Summer. Because his majesty of England is to be crowned so very soon the prevailing theme in feminine headgear for 1911 will be "coronation." This pronouncement comes from the National Association of Retail Milliners. Among the recent creations are: a glorification of the hoods worn by aviators and automobile racers. Helmet hats; a reduced size of designs usually given to large hats; resembles the hat of a London "bobby." Louis XI. turban; draped hood in two styles--(a) soft for dress; (b) high and round of less clinging material, for the street.

Other styles include the classical Rembrandt, the Louis XIV. shape, which is turned up behind and down in front; the Reynolds hat of 1870, with the side front turned up; the Gainsborough and the leghorn. For the outdoor (or) burlap will be used.

By strengthening the nerves which control the action of the liver and bowels Dr. Miller's Nerve and Liver Pills cure constipation. 10 doses 25 cents.

## A Pleasant Agreement.

Frederick the Great once saw a crowd of men staring at something on a wall. Riding up, he found that the object of curiosity was a placard against himself. It had been placed so high that it was not easy to read it.

Frederick ordered his attendants to take it down and put it lower. "My people and I," he said, "have come to an agreement which satisfies us both. They are to say what they please, and I am to do what I please."--Mathews' "Literary Style and Other Essays."

Sincere, but Awkward. It was at the private theatricals, and the young man wished to compliment his hostess, says the Boston Transcript.

"Madam, you played your part splendidly. It fits you to perfection."

"I'm afraid not. A young and pretty woman is needed for that part," said the smiling hostess.

"But, madam, you have positively proved the contrary."

## HIGH CUT SHOES

In Tan, Patent and Gun Metal leathers for Ladies and Children from

28 & 30 East Third Street,  
Dayton, Ohio.

## Death Calls

### Almon Bradford.

Almon, son of Clifford and Sybil Bradford, was born in Riga, N. Y., December 13th, 1829, and died at Cedarville, Ohio, November 11, 1911. He was one of ten children and came with his parents to Ohio in 1833. As this was before the time of steam, they floated down the Ohio on a flat boat to Marietta, and then overland with an ox team, to Clark county, following the trail blazed the previous year by the late Dr. Gillett and spent the winter in a log cabin on the spot where Locust Grove schoolhouse now stands in Springfield township.

He was a direct descendant of Governor Bradford of Plymouth colony. The deceased was united in marriage to Margaret McBeth in 1856. Of this union were born three sons: Albert, of Columbus, Rolla, of Topeka, Kan. and Rufus, of this place. They, together with fourteen grandchildren and two great grandchildren survive him. His wife departed this life in 1893.

He was again married in 1896 to Susan Morford who died in 1906.

He was active in public life as superintendent of the Lisbon Sunday School before the war, as Justice of the Peace, in Lisbon, South Charleston and Cedarville, and for a time mayor of South Charleston.

He served his country during the Civil war with the 45th O. V. I., also a member of the McMillan Post No. 123; a member of I. O. O. F. of South Charleston and a member of the M. E. church of this place.

He has been a great but patient sufferer for the past two years and passed away with the full Christian hope.

The funeral service was held at South Charleston, November 14th. The pastor, W. E. Pitt, was assisted by the Rev. Gaddis and Dr. Gibson. The I. O. O. F. escorted the body to the grave and conducted the burial service.

## NOTICE.

In the matter of Publication of Notice in the estate of R. F. Kerr, Deceased.

Notice is hereby given that the undersigned has been appointed and qualified by the Probate Court of Greene County, Ohio, as administratrix of the above named estate. All persons indebted to said estate must make immediate payment; those having claims will present them for settlement.

Dora J. Kerr.
